

Automatic Vacuum Packager

FEATURES

This package is set with the function of combining vacuum, sealing, printing in one process and for different packing materials and requirements, with the adjustable devices for the vacuum, hot sealing temperature and time so as for the users to get optimum selection and adjustment for an optimum effect of packing. The printing device with a convenient letter- change and clear printing is available per the desire of the users, with which, users may print on the sealing at the same time for sealing the valid period, date of ex- factory etc. To meet with the provision of the national food label law. The package features advanced design, full function , stable and reliable performance , good sealing strength, strong packing capacity, convenient operation and service, high economic benefit etc. And is the idealer machinery for the vacuum package.

Specification	
Model	MPVP-300
Chamber Size	330x 280x 50mm
Power	220V/ 50Hz/0.5Kw
Sealing Length	300mm
Mini Vacuum	0.08MPA
Pump Power	0.37Kw
Speed	2.-3S/M
Size	47x 35x 32cm
Weight	35Kg

Specification	
Model	MPVP-400
Chamber Size	400x 280x 90mm
Power	220V/ 50Hz/0.5Kw
Sealing Length	400x10/2
Speed	2.-3S/M
Size	60x 67x 70cm
Weight	65Kg

Specification	
Model	MPVP-400B
Chamner Size	400x320x100mm
Power	380/220V 1.5 Kw
Mini Vacuum	0.1MPA
Pump Power	0.75KW
Speed	2-3S/M
Size	56 x 62 x 100cm
Weight	100kg

Double-chamber Vacuum machine (MPVP-4002,5002)

Specification		
Model	MPVP-4002	MPVP-5002
Chamner Size	400x440x120mmx2	500x440x120mmx2
Sealing length	400mmx2	500mmx2
Mini Vacuum	0.1MPA	0.1MPA
Speed	2-4S/M	3-5S/M
Power	380V/220V 1.5Kw	380V 2.4Kw
Pump Power	0.75KW	1.5KW
Size	110 x82 x 100cm	130x95x110cm
Weight	180kg	260kg

Vacuum Gas Filling Packagine Machine

FEATURES

- The well-found function could meet different packing requirements, just for sealing , for charging , for vacuum packing, for charging inter gas after vacuum pumping.
- Adopt the automation procedure control, gasping, charging, sealing, mark letter, cooling etc, procedure automatically.
- Adopt the double charging mouth with no vacuum chamber system, the package will be drop out from the charging mouth automatically after gasping (charging), prefect sealing performance, adjustable speed and high working efficiency.
- Adjustable times on the gasping, charging and hot sealing, thus it is used for sealing all kinds of film and complex films.

Vacuum Flushing Packing Machine (MPVS-450)

Specification	
Model	MPVS-450
Sealing Size	450x10mm
Power	220V/50Hz/1.5 Kw
Table Size	450x400mm
Dimensions	520x350x300mm
Weight	34kg

Vacuum Flushing Packing Machine (MPVS-600)

Specification	
Model	MPVS-600
Sealing Size	600x10mm
Power	220V/50Hz/2.8 Kw
Table Size	600x400mm
Dimensions	670x460x1020mm
Weight	80kg

Skin Packager

FEATURES

- The Skin Packaging machine has the advantages of wide scope of use and low cost. It needn't mould in packing any kinds of goods, and the packing procedure is simple with the effects of transparent, beautiful .Strong felling of stereo perception, preventing damp and dust.

Vacuum Skin Packing Machine (MPSKP-3954)

MPSKP-3954
Skin Packing Machine

Specification	
Model	MPSKP-3954
Packing Speed	>90pcs/hour
Packing area	390x540mm
Maximum packing height	<80mm
Power	380V/50Hz/08Kw
Dimension	1000x700x1200mm
Weight	210kg
